DIRECTOR OF CENTRAL INTELLIGENCE
Technology Transfer Intelligence Committee

11 MAR 1983

TTIC-C-127

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Response to a Request by State Regarding the Monitoring of
Third Country Transfer of US Defense Technology

1. Recommendation. That you sign the attached memorandum to Hugh Montgomery, the Director of Intelligence and Research, Department of State. The memorandum states that, as requested, you have reminded appropriate members of the Intelligence Community of the need to carefully monitor Third Country transfers of US defense technology supplied under the Arms Control Act which State administers. [] 25X1

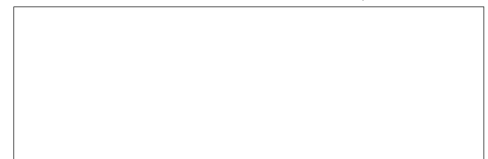

2. Background. Mr. Montgomery asked that the Intelligence Community be alerted to a new requirement of law (see attached reference materials from State) and urged to maintain a careful watch for evidence of unauthorized transfers of US-provided defense equipment, materials, services, and technology. The Second Joint Resolution appropriating funds for FY 1983 prohibits the use of funds to furnish or facilitate the sale or transfer of sensitive US defense technology to any country unless the President certifies that he has reliable assurances that such countries will not transfer our technology to certain proscribed countries. Mr. Montgomery notes that the Intelligence Community is already doing good work in this general area, but that it would nevertheless be useful to inform its members of this new statutory injunction. [] 25X1

3. The INR letter and materials were discussed and distributed to members of TTIC at our 9 March meeting, and members were urged to alert appropriate analytical and collection managers of their Departments and Agencies to the need and the requirement. The State Member of TTIC also spoke to the topic. []

Third Country Transfer of US Defense Technology

4. Although Mr. Montgomery's memorandum requested you also address this topic at an NFIB meeting, we have been informed that he now does not wish to have the matter discussed at NFIB. Your memorandum to him addresses his request, but gives him the choice of raising the topic there.
